- PUBLIC TRANSPORT
- ASSET SECURITY
- PERSONAL USE
- FLEET MANAGEMENT

Remote Monitoring, Video Playback, Real Time snapshot Tracking anytime, on any device, on many assets

*** Testimonial ***

it gives me a sense of security to drive around now, If I forget to call my husband he can quickly log into the tracking app and see where the vehicle is and if I am safe. I can also watch my car while it is parked in an unsecured area.

I would recommend this unit for any person in South Africa. I also use it for my insurer to prove that I did not cause an accident in case of a claim
